Bidders:

The following is for informational purposes only. This is **NOT an Addendum.**

1. **Question:** Is there going to be extra stock on these jobs and how much it would be? **Answer:** There is no required amount of extra paint for stock on these jobs. However, if you want to leave leftover paint when the job has been completed that would be great. The district normally stocks those colors in the maintenance department.
2. **Question:** Regarding the three schools for the painting project bids that's due 5-28-20, will they need 3 separate bid bonds or just one? **Answer:** A separate bid was issued for each project. A bid will need to be submitted for each project, therefore each project will require its own Bid Bond.
